EXAMINER'S COMMENT

Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:

The examiner is persuaded by the arguments presented by applicant in the paper received by the Office on November 10, 2003. The instant invention provides the advantage of making it possible to prevent a so-called "channel phenomenon" in which water flows only through a specific portion of a filter material, thereby helping to use the entire filter medium. It also makes it possible to locate aerobic and anaerobic bacteria at different places in the same water channel, and thereby to obtain nearly perfectly purified water and permits miniaturization of the apparatus.

Oath/Declaration

2. Applicant is now required to submit a substitute declaration or oath to correct the deficiency of not providing the citizenship of the inventor. The substitute oath or declaration must be filed within the THREE MONTH shortened statutory period set for reply in the "Notice of Allowability" (PTO-37). Extensions of time may NOT be obtained under the provisions of 37 CFR 1.136. Failure to timely file the substitute declaration (or oath) will result in **ABANDONMENT** of the application. The transmittal letter accompanying the declaration (or oath) should indicate the date of the "Notice of Allowance" (PTOL-85) and the application number in the upper right hand corner.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
